What is DS Prep?

DS Prep is a web app designed to help aspiring data scientists prepare for interviews and study key concepts in a variety of data science topics.

The app was created using Django, Python, Bootstrap, & HTML5.

The database was set up with Postgresql and Pgadmin.

Entity Relationship Diagram

Queries

```
1  COPY public."questions" FROM '/tmp/questions.csv' DELIMITER ',' CSV HEADER;
2
```

```
1  SELECT * FROM public.flashcards
2
```

```
1  SELECT *
2  FROM public.flashcards as f
3  WHERE f."Subtopic" = 'Python'
4
```

```
1  SELECT q."Question", s."Topic"
2  FROM public.questions as q
3  JOIN public.subtopic as s
4  ON q."Subtopic" = s."Name"
5  WHERE s."Topic" = 'Information Management'
6
```
